Office Memorandum • UNITED STATES GOVERNMENT

TO : Chief, Electronic Development Section

DATE: 3 February 1950

FROM : Deputy Chief, Engineering Branch

SUBJECT: Miniature Gasoline Generator Set; Feasibility of.
CIA Project #OPC-29-50, "AWARD" Project

1. In compliance to an order from the Division Chief, you are requested to calculate the feasibility of producing an internal combustion engine-generator set with the general characteristics of those proposed by on file under subject project. The study should be general in nature and based on applicable general formulae and approximations. It is intended only to document our support of this project as being feasible and worthy of further development.

25X1

2. Since the project will be the subject of discussions and negotiations, it is desired that your report be submitted as early in the week 6 - 10 February as may be practicable.
